JAVASCRIPT HACKS
FOR BUSY PEOPLE
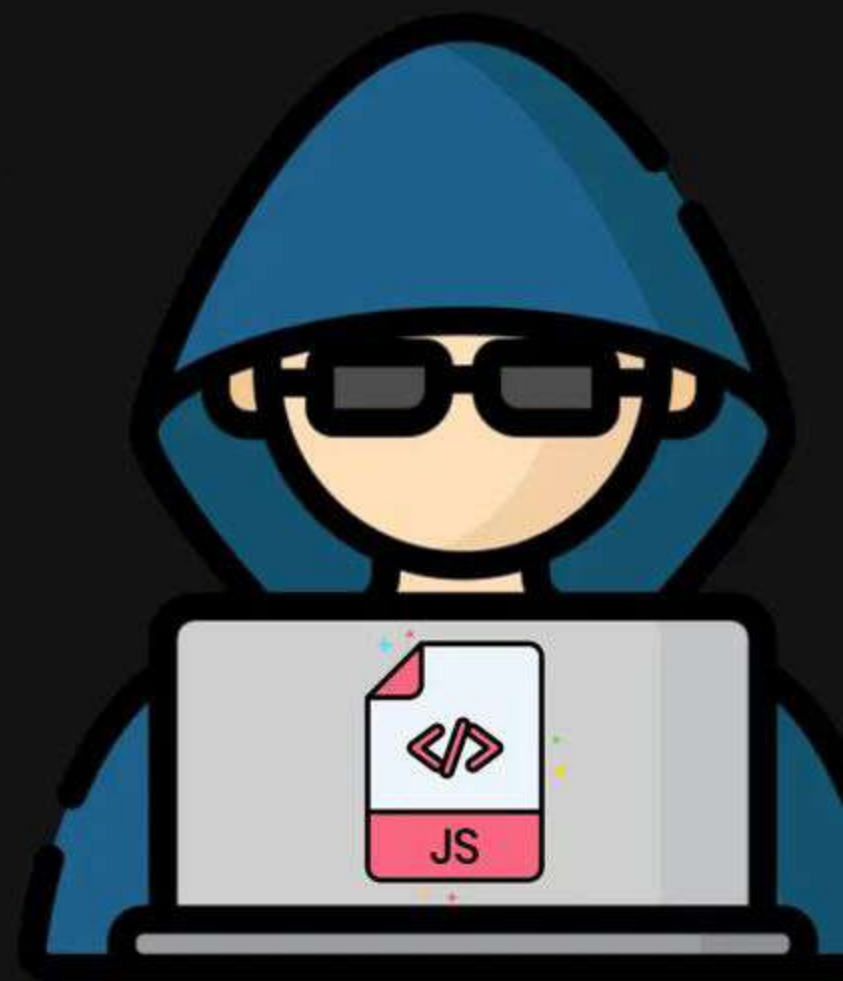

Short circuit conditionals

Noobs 🚫

```javascript
if (docs) {
    goToDocs();
}
```

Pro ✅

```javascript
docs && goToDocs()
```

Array to object

Noobs 🚫

```javascript
let arr = ["value1", "value2", "value3"];
let arrObject = {};
for (let i = 0; i < arr.length; ++i) {
    if (arr[i] !== undefined) {
      arrObject[i] = arr[i];
    }
}
```

Pro ✅

```javascript
let arr = ["value1", "value2", "value3"];
let arrObject = {...arr};
```

Populating an array

Noobs 🚫

```javascript
for(let i=0; i < arraySize; i++){
        filledArray[i] {'hello' : 'goodbye'};
}
```

Pro ✅

```javascript
let filledArray = new Array(arraysize).fill(null).map(()=> ({'hello' : 'goodbye'}));
```

The ternary operator

Noobs 🚫

```javascript
let hungry = true;
let eat;
if (hungry == true) {
        eat = 'yes';
} else {
        eat = 'no';
}
```

Pro ✅

```javascript
let hungry = true;
let eat = hungry == true ? 'yes' : 'no';
```
